

Final announcement – LOFAR Science workshops 2016

Third LOFAR Users meeting

2016 LOFAR Community Science Workshop

ILT Technical Operations Meeting

4-7 April 2016

Zandvoort aan Zee, The Netherlands

www.astron.nl/lofarscience2016/

lofarworkshop@astron.nl

Programmes

The programmes of the meetings are available at

<http://www.astron.nl/lofarscience2016/programme.php>

Information about the social program - welcoming reception on 4 April and workshop dinner on 5 April - is available at the same page.

Information about how to reach the meeting venue ([NH hotel Zandvoort](#)) from Zandvoort train station is available at

<http://www.astron.nl/lofarscience2016/logistics.php>

Shuttle buses

Note: the hotel is at walking distance (10 minutes) from the train station. However, shuttle bus transportation will be available at peak arrival and departure times – details given online.

Presentations

We have a fairly full program, so for all meetings we will use a central computer to make switching between presentations more efficient. Please be prepared to provide your presentation on a USB stick before your session begins. We will support the latest versions of Acrobat Reader, Keynote, Powerpoint, OpenOffice, and LibreOffice.

Note that we plan to make the presentations available online after the meetings. In case you want to provide a censored version of your talk to go online, please notify the LOC during the meetings.

If you have any additional questions, just check the website or contact the LOC at lofarworkshop@astron.nl. We look forward to seeing you in Zandvoort aan Zee!

Sincerely,

Roberto Pizzo
On behalf of the Local Organizing Committee
