

DRAGNET GPU Cluster Tender Documents

In Nov/Dec 2014 we wrote the documents for the GPU Cluster EU Tendering procedure. The tender is planned to go onto TenderNet in Jan 2015.

This is how the cluster is approximately going to look (from the Annex A specs doc):

Annex A (cluster specs) are the most interesting. **Warning:** detail overflow.

The other documents are a request for offers and some procedural boilerplate. If you need to do the same, please ask the Inkoop group for up-to-date templates. Most of these have been adapted for our tender (e.g. offer max hardware for fixed price, etc). All documents (except the Annex A cluster specs) are written in Dutch to avoid the work of having to go through dozens of foreign (EU) offers.

Note: If you edit these .doc files, use Word, not {Libre,Open}Office!
