

# Contact list

## Wiki administrator

Your Wiki administrator is Arno Schoenmakers. In his absence, contact Teun Grit or Hanno Holties. Emails can be sent to [this address](#).

## Observatory contact persons for LOFAR

Note: There also is a [restricted page for internal use](#) (with nice pictures and such).

| Observatory points of contact for LOFAR operations         |                                                            |
|------------------------------------------------------------|------------------------------------------------------------|
| Operator on duty (access to systems, status updates, etc.) | Geert, Jurjen, Richard, Henk, Paul (phone +31 521 595 701) |
| Science Operations and Support                             | Roberto Pizzo                                              |
| Operations, General                                        | Marco Drost                                                |
| Operations, Software & ICT                                 | Jasper Annyas                                              |
| Observatory contact persons for LOFAR (sub) systems        |                                                            |
| Infrastructure                                             | Jan Pieter de Reijer                                       |
| Station Systems/Analogue (Antenna & Receiver)              | Menno Norden                                               |
| Station Systems/Digital (Digital Processing)               | Menno Norden                                               |
| CEP (Processing Resources) & WAN                           | Teun Grit, Reinoud Bokhorst                                |
| CEP (Data Storage & Access)                                | Hanno Holties                                              |
| OLAP, SAS/MAC, User Software                               | Arno Schoenmakers                                          |
| Offline Processing (FSI)                                   | Adriaan Renting                                            |

Interfaces to the non astronomical LOFAR applications still need to be defined.

## Lofar Internet Security Incident Response Team

- This is the [list of people](#) responsible for dealing with LOFAR network security.

**Any Lofar user who has an indication for abuse attempts on Lofar systems has the duty to warn one of the team members immediately.**
