2025-09-08 12:03 1/1 start

## **LOFAR Development Meetings**

The LOFAR Development meetings have the following goals:

• Prioritize the development work for the software development team at ASTRON based on input from the ASTRON MT, the ILT, the KSPs, Operations, and the Dev team itself.

• Identify resource problems and address these.

The meetings kicked of on Jan. 24th 2013, after the LCCG was abandoned. The current (Jan 2013) members are:

- Michael Wise (project scientist)
- Roberto Pizzo, Antonis Polatidis (LOFAR system/operations)
- George Heald (Imaging modes)
- Jason Hessels (Beamformed modes)
- Hanno Holties (LTA)
- Ronald Nijboer (BG, calibration and imaging)
- Arno Schoenmakers (scrum master dev. team)

## **Meetings**

Date	Notes
Jan 24 2013	Jan 24 2013

## **Product Backlog**

Printout of product backlog Entries in boldface have been picked up in the current sprint (1.11, Jan 14 - Feb 4). The remaining entries are to be considered and (re-)prioritised for the following sprints.

The un-numbered entries should receive estimated of the effort required/priority in subsequent meetings.
