

Conversion tools

This page contains links to tools that can be used to convert files to the DokuWiki syntax.

HTML conversion

Many pages exists as HTML code. You can enter them into the Wiki to make them searchable by the search option, and for 'easier' editing.

- [Online HTML converter](#). Cut and paste your HTML source text, select DokuWiki as output flavour, and press 'Convert'. The result can be cut-and-pasted into a Dokuwiki editing screen.

MediaWiki conversion

The [LOFAR wiki](#) is an MediaWiki implementation. There are tools to convert the MediaWiki syntax to DokuWiki syntax, in case you want to migrate pages from the LOFAR wiki to this wiki.

- [Online MediaWiki converter](#). Cut and paste your MediaWiki source text, and press 'Convert'. The result can be cut-and-pasted into a Dokuwiki editing screen.
