# TBB Update

Andreas Horneffer  
for the LOFAR-CR Team

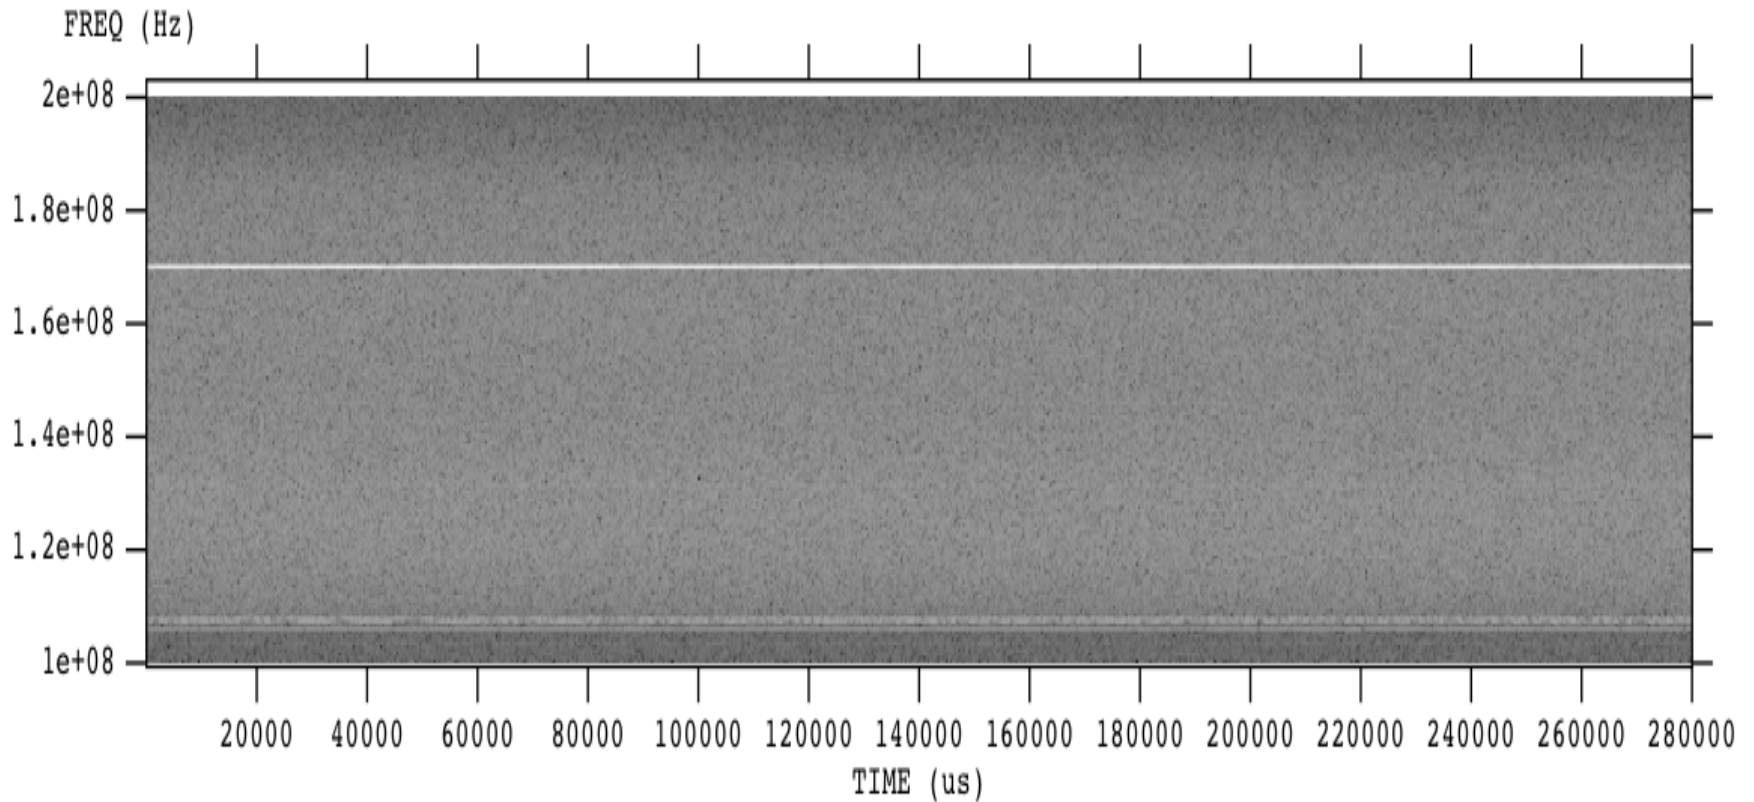

- TBB busy week results:
- ToDo:
  - Fix TBB time-stamps (on the RSPs)
  - Fix tbb2h5
  - Write scripts for controlling more stations at once
  - Get the TBBs included in MAC

- TBB busy week results:
- ToDo:
  - Fix TBB time-stamps (on the RSPs)
    - Partly done (need to discuss more)
  - Fix tbb2h5
    - Memory leaks fixed, (new?) issue with “broken” packets
  - Write scripts for controlling more stations at once
    - Still to do
  - Get the TBBs included in MAC
