RS208

➤ Jumbo frame non-compliance

- all network cards in the storage nodes will be exchanged
- a network card in the offline machines will be added
- planned date: 16 September – 18 September

- All driver software and firmware is updated
 - ☞ more stable
 - ☞ ring split functionality added
 - ☞ compatible with Effelsberg changes in IP header

- Station calibration 1.0 defined
 - ☞ latest functionality tested
 - ☞ used first as initial calibration
 - ☞ porting to LCU ongoing
