What else?

- Connection with Effelsberg works since last week again completely
- Fields are too wet to do most of the groundwork
- Other things are done (validation, work on cabinets)
- Repair of the HBA tiles & anchors within the next 2 weeks, starting with the stations that had problems.

What else?

- Potsdam & Nancay have started to dig cable trenches and installing LBA antennas
- Chilbolton will receive the container, cables, electronics and LBA's next week and the week thereafter
