

LTA status

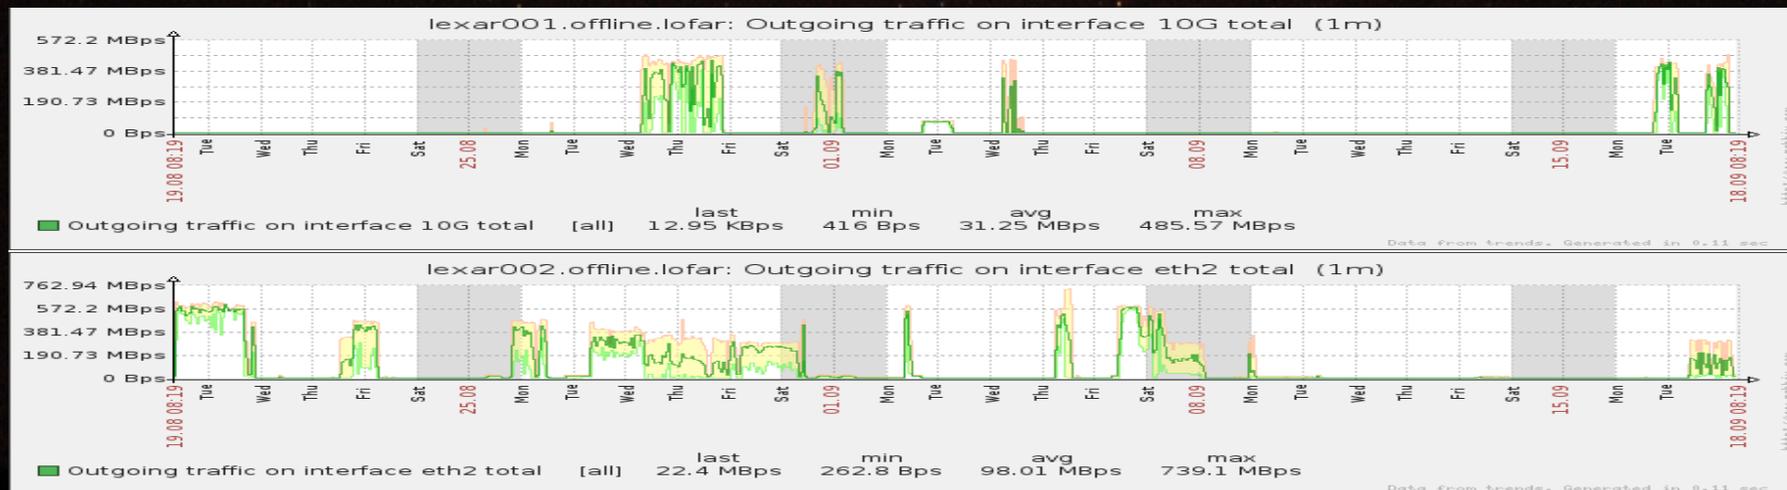

Adriaan Renting
Lofar Status Meeting

18 September 2013

July/August results

Data transferred to the LTA: 290 TB + ~50 TB EoR
Data staged/retrieved from the LTA: 64 TB
Total stored: 7.4PB (1.5 Jülich/4.3 SARA/1.6 Target)
Uptime: Big problems at Target after failure of cooling at Landleven site has been solved.
Some problems with certificates, MoM 1.16 update.
Less observations due to CEP network reconfiguration.
