

## LTA status

Hanno Holties  
Lofar Status Meeting

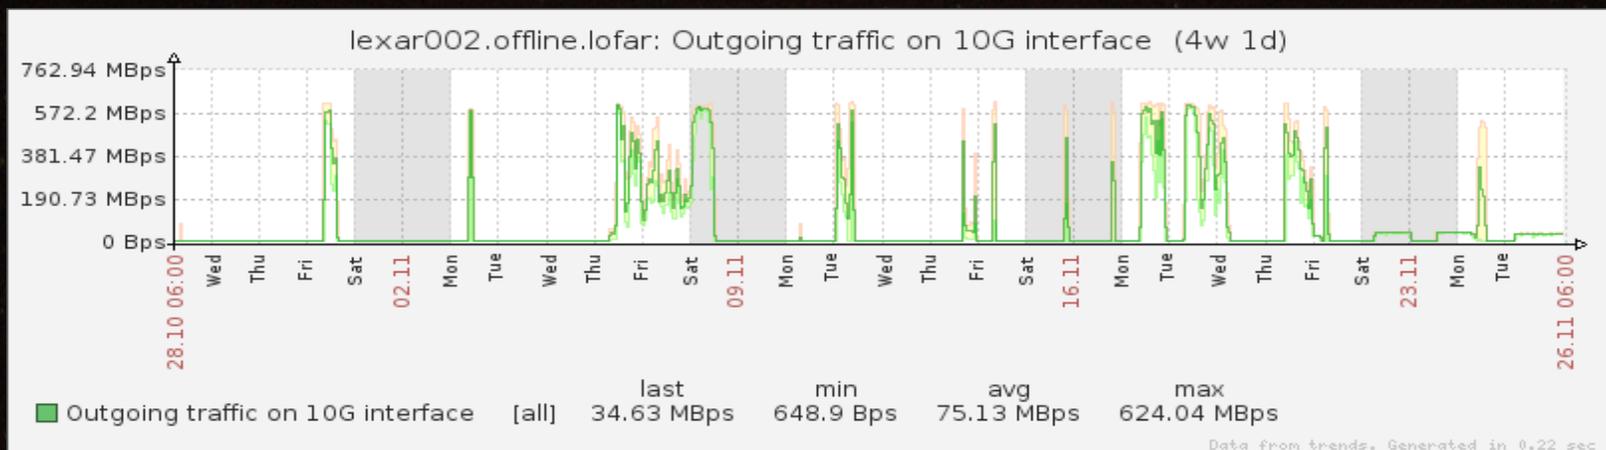

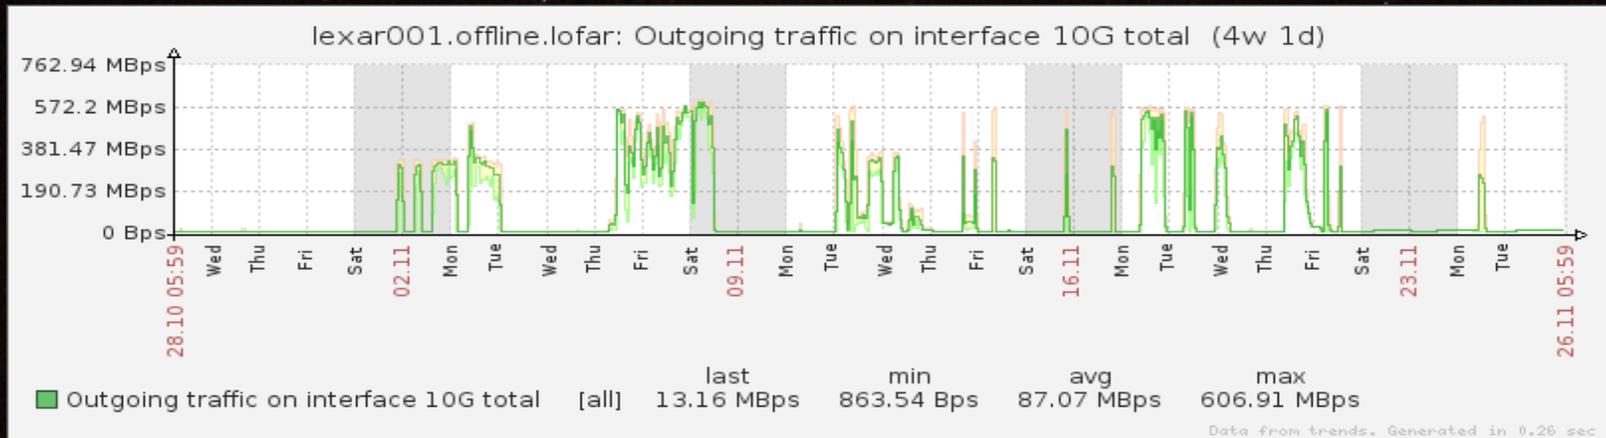

26 November 2014

# November results

## 28 October – 26 November

Data to the LTA:  $\pm 406$  TB + transfers to EoR ( $\pm 500$  TB)  
Data staged/retrieved from the LTA: 55 TB  
Total stored: 12.5 PB (3.0 Jülich/7.9 SARA/1.6 Target)

# November uptime

## 28 October – 26 November

### Big interruptions (several days to weeks):

- 17-20 November Target storage out (DNS issue in Target domain)

### Smaller issues (single day)

- 13 November Target services down (no LTA ingests possible)
- 19 November large ingest broken off (CEP NFS issue; restarted)

### Target ingest (EOR) halted due to Target issues & disk space full

- Currently transferring direct from CEP to EOR

### Work and plans

- Public availability of data in the LTA
