

Array Status

Current Status:

- 38 operational NL stations
- 24 CSs
- 14 RSs
- 8 ISs

- NL stations TBB memory upgrade installation started
- RS210 validation completed: now part of the array
- Maintenance continues at reduced pace (holiday, hot weather)
- All stations dropped out on July 22-23 due to high temperatures: will work ideas to reduce effects of high T's
